

Technical Specifications Pins & Washers

Installation Hardware

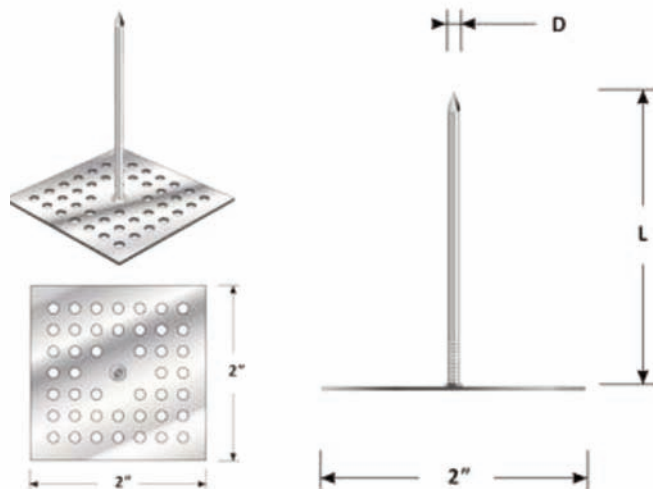

Pins

Soundown's Insulation Pinning System is designed to for ease of use and long lasting installations. The perforated base allows for a mechanical and adhesive bond, while the pin provides reliable support for the insulation. Information on using this system can be found in Soundown's Installation manual.

D	P	L
12 ga. (.106)	2" x 2" - perforated	2.5"
12 ga. (.106)	2" x 2" - perforated	4.5"
12 ga. (.106)*	2" x 2" - perforated	6.5"
10 ga. (.113)*	2" x 2" - perforated	2.5"
11 ga. (.113)*	2" x 2" - perforated	4.5"
12 ga. (.113)*	2" x 2" - perforated	6.5"

Material: Pins are available in Stainless Steel, Aluminum, or Galvanized Steel.

* Not stock sizes, minimums and/or leads may apply.

Washers

Soundown's Keeper Washers are self locking to securley hold insulation in place. Multiple washers can be added to each pin if muultiple layers of insulation are required.

Pin size	Length	Width
12 ga. (.106)	1.125"	1.25"
10 ga. (.113)*	1.125"	1.25"

Material: Pins are available in Stainless Steel, Aluminum, or Galvanized Steel.

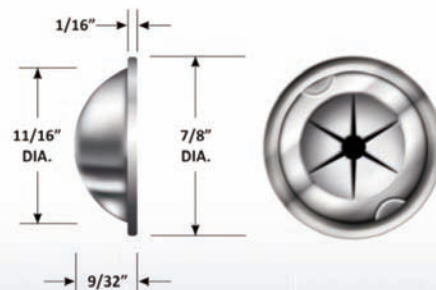

* Not stock sizes, minimums and/or leads may apply.

Dome Caps

Soundown Dome Caps are installed after the last keeper washer to provide a clean finish and reduce risk cuts or scratched from unfinished pins.

All Dome Caps are aluminum.
